MEMORANDUM FOR: Mr. Allen Dulles  
Deputy Director  
Central Intelligence Agency

On March 18, Dr. Allen sent to you a paper prepared by [redacted] one of our consultants, entitled "Sug-  
gestion for Improving Facilities for Ideological Warfare."  
[redacted] s paper concerned the urgent need for the book  
distribution project developed by the Department of State, for  
which it is asking \$5,000,000 from the Congress for FY 1953.

In Dr. Allen's absence, I thought it best to inform you  
of the latest developments in this project. Of the total  
operating budget of \$133,000,000 requested for the International  
Information Administration, the House Committee recommended  
\$111,000,000, of which \$4,000,000 was specifically assigned to  
the book project. The House, however, voted a total of  
\$86,575,000 with no specific allotment to the project. The  
latter figure is approximately equal to the current operating  
budget and, in view of IIA's increased responsibilities in  
Japan, would in all probability rule out the book project for  
next year. Nevertheless, IIA is currently considering a  
modest start on the project with funds taken from FY 1952  
appropriations.

I would very much appreciate your views on the foregoing courses of action, since there is considerable agreement here as to the validity of [REDACTED] paper and the need for some such project as proposed by the Department of State. Perhaps we could get together some day next week to discuss the matter.
